SUBSIDIA

QUIBUS IN DELINEANDIS TABULIS USI SUMUS.

Hannonis navigatio ut illustraretur (tabb. 1 et 2), oram Lybiæ occidentalem descripsi secundum tabulas nauticas quæ nuperrime Parisiis prodierunt (*Côte occidentale d'Afrique. Au dépôt de la marine,* 1852), simul adhibitis tabulis quæ inscribuntur : *West Coast of Africa surveyed by Arlett, Vidal, Boteler*, etc., 1835 sqq., et : *Carte de l'empire de Maroc par E. Renou, membre de la commission scientifique d'Algérie,* 1844, et quam Henricus Barthius dedit : *Karte vom Nordafrikanischen Gestadeland* (*Berlin,* 1849).

De tabulis quæ ad Scylacem pertinent, non est quod moneatur, quum summis lineolis maris interni oram leviter adumbrasse pro ratione peripli Scylacei satis esset.

Sinus Arabici descriptio (tabb. 6-8) mappis nititur hisce : *Chart of the Red Sea on Mercators projection compiled from a stasimetric survey executed in the years* 1830, 31, 32 *et* 33 *in the honorable company's ship Palinurus by commander R. Moresby and lieut. F. G. Carless* (4 tabb.). — *Carte de la mer Rouge dressée par M. Daussy d'après les travaux de Mss. Moresby et Elwon.* (*Dépôt de la marine,* 1849.) — *Südwestliches Arabien* (*Hidjaz und Jemen*) *zu C. Ritters Erdkunde bearbeitet von H. Kiepert, herausgegeben von C. Ritter. Berlin,* 1852. — *Arabia und das Nilland von H. Berghaus. Gotha,* 1835.

In Isidori mansionibus Parthicis Euphratis particulas (tab. 9) dedimus ex opere Chesneyi : *Survey of the rivers Euphrates and Tigris.* Cetera (tab. 10) superstructa sunt tabulis Kiepertianis : *Uebersichts-Karte von Iran oder West-Hochasien* et *Turan oder Türkistan. Berlin,* 1852.

Quod periplum maris Erythræi attinet, ora Libyæ orientalis (tab. 12) delineata est secundum : *Carte de l'entrée de la mer Rouge dressée par M. Daussy, ingénieur hydrographe en chef, d'après les travaux les plus récents.* (*Au dépôt général de la marine,* 1840), et *Carte du canal de Mozambique*, etc., quam eidem debemus Daussyo. — In describenda ora aromatifera secuti sumus tabulas quibus titulus est : *Trigonometricul survey of the north east coast of Africa by lieut. F. G. Carless, J. N., assisted by Messrs Ball. Whitburn, Selby and Scott, midsh., Indian navy,* 1838. — Arabiæ oram australem (tab. 13) habes secundum Arabiæ tabulam quam dedit Kiepertus, edidit Ritterus (Berlin, 1852); Dachinabadæ oram (tab. 14) secun-

dum Berghausium (*Generalkarte von Vorderindien*, 1836) et Kiepertum *Die Halbinsel Vorderindien mit Ceylon*, 1852).

In Nearchi navigatione (tab. 15) regionem Indo proximam expressimus ex tabulis Caroli Zimmermann (*Das Stromgebiet des Indus in 6 Blættern, Berlin*, 1851); in reliquis oræ partibus adhibuimus : *Central Asia constructed form numerous uuthentic documents, but principally from the original surveys of lieut. Alex. Burnes, by J. Arrowsmith; — Berghaus, Reduzirte Karte vom Persischen Golf; — Chesney, Survey of the rivers Euphrates and Tigris.*

Ponti Euxini (tab. 17, 18) ora meridionalis datur sec. Kieperti *Karte von Kleinasien* (*Berlin*, 1844; 6 *Blætter*), orientalis vero ora ducta est ex mappa nautica quam Petropoli russice edidit Manganari (1844).

Libyæ oram borealem (tab. 19-23) exaravimus secundum tabulas nauticas quas composuit *Captain W. H. Smyth ;* simul adhibuimus quæ præbent Beechey in *Proceedings of the expedition to explore the northern coast of Africa from Tripoly eastwards in* 1821 *et* 1822 (*London*, 1828) et H. Barth in tabula quam junxit operi : *Wanderungen durch die Küsterlænder der Mittelmeers* (*Berlin*, 1849). Situs Carthaginis urbis in tab. 23 repræsentatur sec. *Dureau de lu Malle* in *Recherches sur la topographie de Carthage* (*Paris*, 1835).

In tabb. 24 et 25 præter Kieperti Asiam minorem usi sumus Chesneyi tabula : *The Cilician Taurus and Northern Syria* et Lyciæ tabula, quam ediderunt F. A. B. Spratt et E. Forbes (in *Travels in Lycia, Milyas and the Cibyratis, London*, 1847). Eorundem ex opere petivimus quæ de ruinis Antiphelli et Tenedi interposuimus.

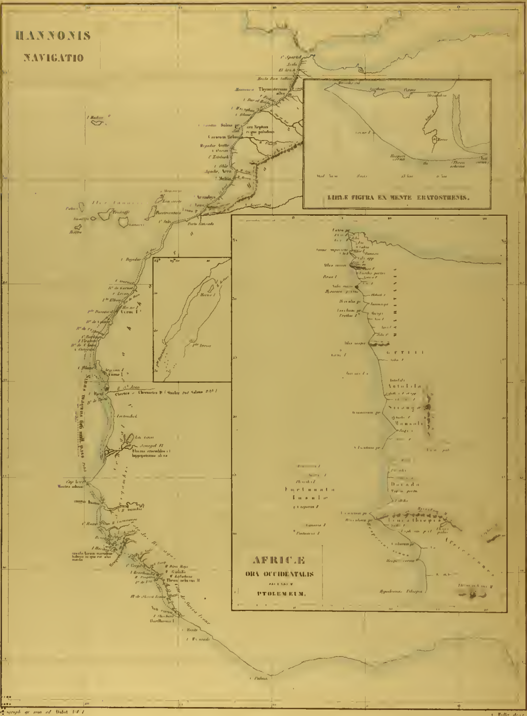

Cyprum insulam (tab. 26) ut accuratius describere possemus, insigni debetur humanitati viri doctissimi, Mas-Latrie, qui quam construxit amplissimam Cypri tabulam (*Carte de Chypre pour servir à l'histoire des Lusignan*) benigne nobiscum communicavit.

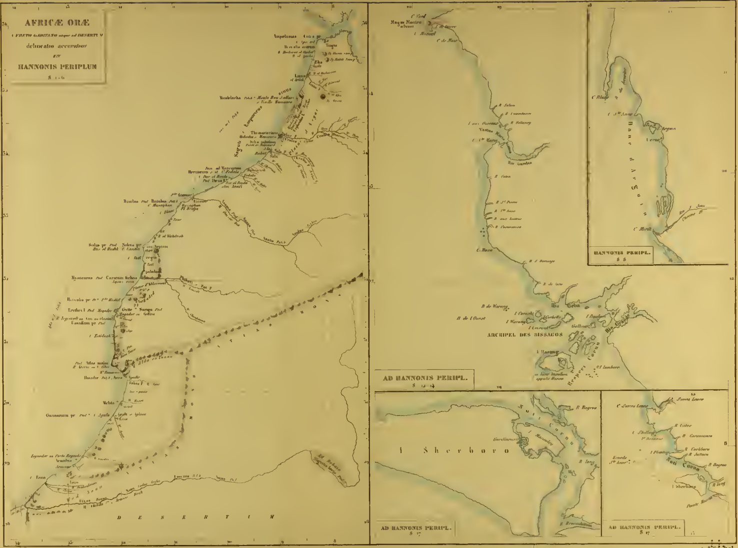

Cretam insulam delineavimus sec. *Carte générale de la Turquie d'Europe en* 15 *feuilles par Lapie*, adhibitis tabulis Kieperti (*Atlas von Hellas und den hellen. Colonien*) et Paschleyi (*Travels in Crete. London*, 1837).

Superest ut grato animo profiteamur operam quam geographis nostris præstiterunt egregiam Jacobsius, vir doctus idemque artifex eximius, qui cupri lamellis tabulas insculpsit, et qui nominum formas exararunt Hacquius, Carreus, Rambozius, Dalmontius.

Parisiis, mense Julii MDCCCLIV. CAROLUS MULLERUS.
